SUMMARY

Information Technology student with skills in Full-Stack Development, Web Technologies, JavaScript, and Database Management Systems. Passionate about problem-solving and building scalable software solutions through real-world projects.

EXPERIENCE

HMIES Solutions Private Limited 🔗

05/2025 – 06/2025

Machine Learning Intern

Visakhapatnam, India

Developed and trained Machine Learning models using Python and Scikit-learn, achieving 90% prediction accuracy. Processed over 5,000 real-world records through data preprocessing and feature engineering, implemented supervised learning algorithms, and optimised model performance using efficient and scalable Python code.

EDUCATION

Bachelor of Technology in Information Technology

2022 – 2026

MVGR College of Engineering

Vizianagaram, India

CGPA: 7.51

SKILLS

Languages & Scripting: HTML, CSS, JavaScript, C, C++

Backend: Node.js, Express.js

Database: MongoDB, SQL, DBMS

Tools & Platforms: GitHub, VS Code, Vercel, Render

Soft Skills: Problem-Solving & Critical Thinking, Time Management & Self-Motivation, Teamwork & Collaboration, Leadership, Fast Learner

LANGUAGE

Telugu | Hindi | English

PROJECTS

AI Resume Analyzer | Full Stack Web Application 🔗

05/2026

Developed an AI-powered resume analysis platform that provides ATS scores, extracts key skills, and delivers personalized resume improvement suggestions to improve job application success.

Epileptic Seizure Prediction using Deep Learning | Academic Project 🔗

01/2025 – 04/2025

Implemented a deep learning-based epileptic seizure prediction system using EEG signal analysis, achieving 98.53% accuracy and enabling real-time prediction through a web application.

Crowd Density Estimator using YOLOv5 | Mini project 🔗

04/2024 – 09/2024

Created an AI-based Crowd Density Estimator using YOLOv5 for real-time crowd detection, counting, and analysis from images and video streams.

CERTIFICATIONS

Google Data Analytics 🔗
